

Institutional Policies, Plans, Procedures & Student Handbook Notice

Dymond Designs Beauty School is committed to transparency, institutional accountability, and providing students with access to all applicable institutional policies, plans, procedures, and educational resources.

Our Student Handbook, institutional policies, procedures, and applicable student information are provided and reviewed during student orientation. These documents are also available to currently enrolled students throughout their enrollment.

Prospective students, parents, regulatory agencies, and other interested parties may request access to applicable institutional documents by contacting the school's administrative office during normal business hours. Copies may be provided electronically or in printed format, as appropriate.

To maintain document integrity, ensure access to the most current approved versions, and protect the institution's independently developed materials, certain institutional documents are maintained internally rather than published in their entirety on our public website.

All institutional policies and procedures remain available for review upon request, subject to applicable disclosure requirements.

For additional information or to request copies of applicable documents, please contact:
